The Stumpfield Cemetery was moved in 1961 to land acquired by the Army Engineers, for the purpose. We have on file a plot plan showing the location of the graves and all work should be completed early in 1962.

The layout for roads and lots in the New Hopkinton Cemetery has been made and the roads in the cemetery, now partially completed, should be finished early in 1962.

In all cemeteries, we have the problem of general upkeep and the increase in the demand for burial lots. It is the opinion of the officers of the Contoocook Cemetery Association and the Cemetery Trustees, that new regulations should be adopted for the Contoocook, Old Hopkinton, New Hopkinton and Stumpfield Cemeteries. We jointly endorse the article in the warrant with regard to wooden boxes, the size of lots and the price of lots.

The cost of regrading and reseeding sunken graves can be avoided if no wooden boxes are permitted. This is an accepted regulation in all Concord, Manchester, Nashua Cemeteries and in many others in New Hampshire.

Valuable cemetery land can be conserved if lots are sold in a size required by the buyer, rather than only in plots with four, eight, twelve and sixteen graves. During the past few years, several four burial lots have been purchased where there are no members of the family to use the three vacant graves.

The expense of preparing land for cemetery pur-

poses and the cost of care of cemeteries continues to rise. If lots in the Contoocook, Old Hopkinton, New Hopkinton and Stumpfield Cemeteries are sold on the basis of $75.00 per burial space to residents of the town and $100. per burial space to non-residents and if $50.00 of the sums so received are held by the Trustees of Trust Funds for the perpetual care of the grave and the remainder used for the general expense of the cemetery in which the land is sold, there would be less burden on the taxpayers of the town.

Respectfully submitted,

WILLIAM H. BROOKS

We sincerely thank our Librarian, the many town organizations and friends, in helping to prepare for National Library Week. By their effort and assistance, we were able to receive from the State Library the first prize; a set of Collier's Encyclopedias, (21 volumes).

We further express our appreciation to the Emerson Hill Community Club for their gift of a large library edition of Webster's Dictionary.

It has been a pleasure to work with our "Friends" group, who organized in April. We are grateful for their support and interest in promoting our library program.

LESLIE C. TOWNES, *Clerk*
Hopkinton Fire Department

To the Selectmen: Hopkinton

Each year there is a demand for a statement on forest fires for publication in the annual town report. It is believed they serve a good purpose locally in preventing fires. The following is offered with the respectful request for publication in your town report.

Sincerely,

GERALD H. HIGHT
District Fire Chief

An Appeal from Your Forest Fire Warden

In these days of constantly rising taxes and wages, any unnecessary expense is an added burden on everyone's pocketbook — yours and mine. Forest fires cost money and damage our valuable woodlands. Lightning sets some forest fires, but we have no control of lightning. Children cause many fires. Ninety-eight percent of our forest fires result from human carelessness — our carelessness. This, we — you — and I can do something about.

When we require you to obtain a permit for out-of-doors burning or forbid you to burn on days of high fire danger or set up regulations — hours, etc., governing the use of the town dump we are simply protecting yours and the town's interest.

The ever present threat of forest fires is the concern of all of us; the responsibility for preventing them is ours and the costs of extinguishing are ours. We can do something about this problem, by being aware of and alert to the danger and by cooperating with your warden.

Do the things that are required of you —

1. Follow the warden's directions.
2. Secure the required burning permit.
3. Keep your fires under control.

4. Completely extinguish your fires before leaving them.
5. See that your children are properly cautioned.

Everyone will benefit by it.

To see what sum of money the School District will vote to raise and appropriate for the support of schools, for the salaries of School District officials, Agents and Employees, and for the payment of statutory obligations of the District, and to authorize the application against said appropriation of such sums as may be received from any State or Federal program for the support of public education, together with other income: the School Board to certify to the Selectmen the balance between

the estimated revenue and the appropriation, which balance is to be raised by taxes by the Town.

6. To see if the District will authorize the School Board to make application for and to receive in the name of the District such advances, grants-in-aid or other funds for educational purposes as may now or hereafter be forthcoming from the U. S. Government and/or State Agencies.

7. To transact any other business that may legally come before said meeting.

Given under our hands at said Hopkinton this 14th day of February, 1962.

HOPKINTON SCHOOL DISTRICT

Report of the Superintendent of Schools

In my last report I detailed all the work which had to be done before the new Contoocook Grade School and the addition to the Hopkinton High School could become a reality. In March the bonds were sold at the very favorable rate of 3.3%; a Contractor, Winston P. Titus of Laconia, was employed; and work was started on the new buildings. Although there were some anxious moments in late August, we were able to start the 1961-62 school year in the new buildings.

Unless one has served on a Building Committee or School Board he has no idea of the amount of work which is involved in planning and seeing a building program through to completion. Much credit is due the Building Committee which consisted of Robert Russell, Chairman, Mrs. Martha Abbott, Mr. Francis Blanchard, Mr. Alfred N. Chandler, Mr. John Hardie, Mr. Stuart Holbrook, Jr., Mrs. Thelma McManus, Mr. Jay C. McLauchlan, Mr. Clifford Phelps and Mr. Elliott Vestal. The School Board Members were P. Roy Cluff, Chairman to March 14, 1961, Stanley W. White, present chairman, and Thomas C. Walz. Now all our children are housed in modern, attractive, fire resistant buildings, of which we all can be proud.

Our school enrollment continues to grow. In September 1960 a total number of 498 pupils were registered. At the beginning of school this year the 549 pupils were registered the first day of school. This trend seems likely to continue for the next few years at least. Certainly there is no sign which would indicate any change in the increases we have had over the past ten to fifteen years. As a matter of fact I read somewhere that Hopkinton is the third fastest growing town in the state.

A committee has been working on a revision of the Minimum Standards for high schools in the state. In the school year of 1963-64 the standards for a comprehensive high school will be raised again, primarily in the area of Basic Curriculum, Physical Education and Guidance, with some change in the Library requirements. We have been moving in the same general direction so the changes in standards should not affect us too much. Next year we plan to institute a program of Physical Education for both boys and girls. Our Guidance Program will have to be expanded, additional courses in General Education and a second course in Language should be offered and the amount of reference material in our library should be increased. These should be our immediate goals for the next few years.

One other change which is being made at the high school level is the proposed shift from Vocational Agriculture to a General Shop Program. It is felt that the agricultural program no longer meets the needs of the majority of boys, and that a general shop program will be of more value to most boys in the school. We plan to offer general experiences in Wood Working, Auto Mechanics, Electricity, Sheet Metal Work and Mechanical Drawing.

The school budget this year has gone up about ten per cent for the school year 1962-63 and our enrollment has gone up about 10% this year so our increase is about in line despite the fact that we are starting to pay on the principal of the new Contoocook Grade School and addition to the High School building. The payment on the High School Building also increased $1000 to $14000. The budget also includes provision for an additional teacher for high school Physical Education and some equipment for this course and for the General Shop course.

One other program in which the school is participating is the advanced studies program at New England College, where eleven of our pupils participated this

first semester in advanced courses in Chemistry, Calculus and Electronics. Much credit is due these young people and to Aerotronics Associates and Kingsbury Davis Company who have financially supported this program. This is a fine example of community support by local industry.

Continued growth in our community means added problems of financing, providing adequate houses, and in such a community as ours, essential transportation. I feel that in spite of the many problems we face in our community we continue to make progress.

It has been an enjoyable year in Hopkinton.

To: Mr. William C. Sterling
Supt., Supervisory Union
Contoocook, N. H.

Mr. Sterling:

I hereby submit my report for the year 1960-61 as Principal of Hopkinton High School.

Of the above graduates, 56% have gone on to further their educations — eleven at four year institutions. These graduates are attending such institutions as Massachusetts Institute of Technology, Columbia, Mid-

dlebury, Univ. of Kansas, Plymouth, Univ. of New Hampshire, New England College, Children's Hospital, and Manchester Technical Institute. Of the remainder of the class, two are in the armed services, eight are gainfully employed, and one is married.

The school year 1960-61 saw the addition of two teachers — Miss Lorraine Cormier and Mr. Theodore Beaven, to meet the demands of our growing school population. Mr. Conrad Perreault replaced Mr. Frank Hounsell as Science instructor. The additional staff members made it possible to have two sections in each subject in the seventh and eighth grades. This, in turn, has enabled us to gear the program to the abilities of the students. I feel that it has worked well.

The current school year brought about more changes in the staff — Miss Jean Adams replaced Mr. John McGrath, Mr. Daniel Parr replaced Mr. Ronald Whittum, Mrs. Etta Lamothe was hired to replace Mrs. Carolyn Roberts as commercial teacher. Mrs. Roberts replaced Mrs. Malcolm Purington as College English instructor and Miss Carolyn Tasker was an addition to the staff.

The opening of the four room addition plus the use of the rooms formerly occupied by grades five and six has provided us with ample space for expansion for a few years. Our library facilities have been expanded considerably through the generosity of the PTO.

Present plans call for the addition of a compulsory physical education program for boys and girls beginning next year. Future planning should give consideration to adding another foreign language, the possibility of a full-time guidance person, and additional laboratory space.

This past year saw the participation of several of our students in an enrichment program in science and mathematics at New England College. As a member of the committee which set up this program I wish to publicly thank Mr. Philip Bell of the Kingsbury-Davis

Division of the Food Machinery Corporation and Mr. Eugene Slusser of Aerotronics Associates, Inc. for their companies' contributions to the support of this program. The National Science Foundation has appraised the program and will undertake its financial support next year.

Respectfully submitted,

WILLIAM H. MILNE
